Other significant customers include HP, Airbus, Pitney Bowes, Volvo, Bayer, Marriott International, Orange, AstraZeneca, LinkedIn and Telenor.

Product Overview

The Neo4j Graph Platform takes a connections-first approach to data. It broadens a company's ability recognize the importance of persisting relationships and connections through every transition of existence: from idea, to design in a logical model, to implementation in a physical model, to operation using a query language and to persistence within a scalable, reliable database.

Neo4j's Graph Platform includes the following components:

- The **Neo4j native graph database** for transactional applications
- **Graph analytics** help data scientists gain new perspectives on data
- **Data integration** expedites distilling tabular data and big data into graphs
- The **Cypher graph query language** is the bridge to big data analytic tooling
- **Neo4j Bloom** provides intuitive data visualization for non-technical users
